

HENDERSONVILLE TOMORROW COMMITTEE

The **Hendersonville Tomorrow Committee (HTC)** was established by ordinance in early 2005 by the Hendersonville Board of Mayor and Aldermen to develop a vision for the City.

'Utilizing broad-based citizen involvement, The Hendersonville Tomorrow Committee will develop a community vision to improve the City of Hendersonville, encompassing what it should be fifteen years into the future.'

Subjects that will be covered include: parks & recreation; transportation; infrastructure; beautification; economic development; housing; elderly services; youth services and urban redevelopment.

The **Hendersonville Greenways Committee** delivered its **Report** to the **Hendersonville Tomorrow Committee** on March 31, 2006.

With the filing of our report on March 31, 2006, our committee has no further *official* capacity unless the **Board of Mayor and Aldermen** choose to perpetuate it.

One recommendation that I did make is that the work of the biking committee should be continued and that they should become an official Greenways Committee. To me this is a no brainer, since there is no cost to the city to do this and they have an excellent committee that should be allowed to continue to work toward their goals. . . . Shirley Wilson, Chairman - HTC: May 12, 2006

BOMA TOOK NO ACTION ON THIS RECOMMENDATION
